

STORMWATER MAINTENANCE CREW LEADER

Position Code: 1930
WC Code: 6306
FLSA Status: Non-Exempt
Pay Grade: 347
Location: Public Services
Approval Date: 2016

General Statement of Duties

Performs responsible technical and skilled work supervising the work of a unit engaged in repair, replacement and installation of stormwater collection systems, right-of-way maintenance, and other public works activities.

Distinguishing Features of the Class

An employee in this class supervises crews engaged in a variety of work associated with stormwater collection systems, swales and ditches and detention systems also may be subject to afterhours call backs. Work includes leading a crew in maintenance and repair of storm drain systems, open ditches and swales, detention facilities and related infrastructure. Work also involves ensuring that crew members take proper tools, equipment and supplies to the work site and responsibility for work crews and their safety. The employee is subject to working in inside and outside environments including extreme hot and cold weather, day or night, and to work hazards including loud noise, vibrations, moving mechanical parts, exposure to chemicals, fumes, odors, poor ventilation, and oils. The employee must exercise judgment and initiative in carrying out assignments. The employee is subject to Level III OSHA Standards on bloodborne pathogens. Work is performed under regular supervision and is inspected for compliance with instructions, conformance to established standards, quality and productivity or work crews, and adherence to schedules and priorities.
